

**SuperiorTube**  
COMPANY, INC

Shaping tomorrow...performing today.

## **ENVIRONMENTAL MISSION STATEMENT**

**February 27, 2006**

Superior Tube Company pledges to operate its business in an environmentally sound manner to protect the environment, our employees, and the public.

We will seek to reduce wastes through source reduction, reuse and recycling. We will strive to achieve energy-efficient manufacturing processes and facility operations.

We will seek to minimize environmental risks by continuously evaluating and improving processes, packaging, pollution prevention, waste disposal, release prevention, and preparedness.

We will seek to minimize environmental risks to the community by employing safe and environmentally sound technologies and operating procedures and by maintaining open communication with the community, elected officials and regulatory agencies.

We will implement this Environmental Mission Statement and sustain a continuing and informed management commitment to its objectives.

A handwritten signature in black ink, appearing to read 'AJ Jost', is written over a faint, larger version of the signature.
